

Beards, time travel and catching salmon [G]

artist:Mike Krabbers , writer:Mike Krabbers

I've got a beard growing out of my face
and I don't think that it looks out of place
to have a beard growing out of your chin
I don't think I will ever shave again

I've got a beard growing out of my face
some people say that it doubles my age
but it's kinda cool it's like travelling through time
if I shave my beard I'll look thirty nine

I've got a face all covered with hair
it makes me feel like a grizzly bear
but you wont catch me pulling fish from a stream
and you wont catch me using shaving cream
no you wont catch me using shaving cream
cos I've got a beard and I'm living the dream
