[C] I find [G] quantum mechanics [Bm] confusing to[E7]day  
Now [A] science is [Bm] all the rage  
The [G] Hadron Collider is [E7] banging away  
[A] Trying to guess our [D7] age [C]  
A [G] particle here, a particle there  
In this [C] weird quantum world bits can [A] be any [D7] where  
Which [G] might just explain [Bm] why I'm [E7] losing my [Bm] hair  
In The [A] Infinite [Bm] Monkey [G] Cage

[G] T'other day I heard Mrs. [Bm] Schrödinger [C] say  
I'm going to [D7] put out the [G] cat [D7]  
Mrs. [G] Heidinge said, [Bm] woo, it [E7] might be quite dead  
I'm most [A] certain if you should do [D7] that  
Un[G]less you've got that Robin Ince and Professor Cox  
I'd [C] leave that poor pussy a[A]lone in its [D7] box  
That [G] cat may be as dead as a rat, [E7] you can [Bm] wage  
In The [A] Infinite Monkey [Bm] Cage

[G] Scientists say all the [Bm] world's just a stage  
That [A] physics is passing [Bm] through  
[G] There may be an in[Bm]finite [E7] number of [A] me's  
And an infinite number of [D7] you (God help us)

[G] Over in CERN, they are trying to learn  
[C] What can the dark matter [A] be [D7]  
[G] Who gives a fig [Bm] if a [E7] pig can do [Bm] trig  
In The [A] Infinite [D7] Monkey [G] Cage

[G] There's many a [E7] superpositional thing  
Is [A] blowing my mind to[G]day [C]  
The [G] multiverse seems to be [E7] made out of string  
[A] That's what the particle [D7] physicists say [C]

[G] If infinite monkeys type every day  
[C] They may accidentally write [A] Hamlet the [D7] play  
But they'd [G] probably just shit on it and [E7] throw it a[Bm]way  
In The [A] Infinite [Bm] Monkey [G] Cage  
[A] That naughty monkey  
In The Infinite [Bm] Monkey [G] Cage without your trousers  
[E7] In The [A] Infinite [Bm] Monkey [G] Cage
