[I think we've met somewhere before, hello love, hello love](#)

[Where in the world have you been so long](#)

[I've missed you so since you've been gone, hello love, hello love](#)

Well look who's coming through the door

I think we've met somewhere before, hello love, hello love

Where in the world have you been so long

I've missed you so since you've been gone, hello love, hello love

Make yourself feel right at home

I hope you plan on staying long, come in love, come in love 123

I must say I was sure surprised

You're the last thing I expected by, hello love, hello love 123

I've heard it said time and again

You often go back where you've been

I really didn't believe it was true

But I left the door unlocked for you 123

I'll try to please you in every way

Assure you of a pleasant stay, this time love, this time love 123

I've been so blue since you've been gone

Now you're back with me and nothing's wrong, hello love, hello love

[Well look who's coming through the door](#)

[I think we've met somewhere before, hello love, hello love](#)

[Where in the world have you been so long](#)

[I've missed you so since you've been gone, hello love, hello love](#)

I've heard it said time and again

You often go back where you've been

I really didn't believe it was true

But I left the door unlocked for you 123

It's wonderful now you're back with me

And things are like they used to be, remember love, remember love

You're back with me now and my world's complete

So don't mind me if I repeat, hello love, hello love, 123

hello love, hello love.
