CHORUS:

This land is your land, this land is my land
From the Simpson Desert, to Philip Island
From the Daintree Forests, to the Bass Strait waters
They share this land with you and me *

As I was driving, the Princes Highway
I saw a a-ove me, that endless skyway
I saw be-low me, a golden valley
They share this land with you and me *

This land is your land, this land is my land
From the Simpson Desert, to Philip Island
From the Daintree Forests, to the Bass Strait waters
They share this land with you and me *

As I was walking, the sun was shining
With the wheatfields waving and the dustclouds rolling
A voice was chanting as mist was lifting
They share this land with you and me *

This land is your land, this land is my land
From the Simpson Desert, to Philip Island
From the Daintree Forests, to the Bass Strait waters
They share this land with you and me *

I've roamed and rambled, and followed footprints
Through the gumtree forests, of our mighty mountains
And all a-round me a voice was sounding
They share this land with you and me *

This land is your land, this land is my land
From the Simpson Desert, to Philip Island
From the Daintree Forests, to the Bass Strait waters
They share this land with you and me *
