x2

I can feel the temperature rising, burning 'til night
I can wait a thousand years here to say something right
We can change the whole situation, we could make it right

We'll sur-vive
We'll sur-vive

I can feel your silent anger, I feel your pain
Behind all your sad intentions, we're just the same
We could have a conversation, trying to make it right

We'll sur-vive, yeah
We'll sur-vive
We'll still sur-vive

Always sign a loaded contract, backs against the wall
I wonder where all this started, do you wonder at all?
We can change the whole situation, we could make it right

We'll sur-vive, ay-yy
We'll sur-vive
We'll still sur-vive
We'll sur-vive
Still sur-vive
